

### Identification

As a commitment towards delivery of the Council's Strategic Plan, it is intended to deliver a Kerbing Renewal and Expansion Program that contributes positively to valued living environments.

In total \$468,447 is allocated for the 2023/24 financial year towards the maintenance, renewal or provision of concrete kerbing in road environments where it is deemed necessary for drainage, traffic control or for aesthetic reasons.

### The Purpose

The Rural City of Murray Bridge has an extensive road network, with many road sections including concrete kerb and gutter. The purpose of kerbing is primarily to direct stormwater to underground systems and to prevent water from entering private property. Kerbing also plays a significant part in formalising the appearance of a street.

### Current Condition

A condition assessment of the existing kerb and gutter network was undertaken during 2017. The assessment of the network deemed that in general, it is in good condition; with the majority of the network fit for purpose and providing adequate drainage performance.

### Kerb Renewal Program

In line with the Council's Asset Management Plans, it is proposed to allocate \$238,500 in 2023/24 to the renewal of existing kerbing networks. These works rectify segments of kerb, generally aligned to road renewal projects, in order to return kerbing to a 'fit for purpose' state.

Road	Segment Description
Humphrey Street	All Kerbs
Minge Ct	All Kerbs

### Kerb Expansion Program

\$229,947 is proposed to be allocated to the provision of new kerbing in 2023/24. This allocation has been earmarked for the installation of kerbing works along Prosperity Grove, which contributes to formalising the edges of the road, creating an overland flow path critical to improve drainage performance.

**MAKE IT YOURS**

Road	Segment Description & Treatment
Kelly Ave	Mulgundawah Rd to Trevor St
Zerna Ave	Christian Rd to Frieda St west side only
Zerna Ave	Frieda St to Adelaide Rd east side only
Ashbrook Avenue	Part of segment Avoca Rd to Woodlands Dr

## Strategic Contribution

	Valued Environment	Great People and Lifestyle	Dynamic Economy	Connected Communities
Strategic Plan 2020-24 Actions Addressed	<p><b>Enlivened community spaces</b></p> <ul style="list-style-type: none"> <li>Improved connectivity and accessibility through expansion of footpath networks, cycling and walking trails</li> <li>Town entrances are enhanced and beautified</li> </ul> <p><b>The river is the lifeblood of our towns</b></p> <ul style="list-style-type: none"> <li>Further reduce dependence on traditional water supplies through introduction of sustainable practices and alternative sources of water such as stormwater harvesting and reuse and rainwater catchment</li> </ul>	<p><b>A modern city with country charm</b></p> <ul style="list-style-type: none"> <li>Deliver contemporary Council services, taking advantage of technology advances and updated service provision methods</li> </ul>	<p><b>Attractive Murray Bridge</b></p> <ul style="list-style-type: none"> <li>Improve attractiveness and linkages within the city centre</li> </ul> <p><b>Effective economic infrastructure</b></p> <ul style="list-style-type: none"> <li>Improve access to local and external markets through provision of transportation routes and infrastructure</li> </ul>
