

about ...Lerwin Aged Care Facility Expansion and Refurbishment Project

Community Update #11
December 2020

PROJECT COMPLETION

After much time in the planning, we are very happy to announce that the expansion and refurbishment of Lerwin is now complete.

The new extension is fully functional, Stage 2 and 3 of the refurbished areas are finished with minor final touches being undertaken on Stage 4.

With all the challenges this year has thrown at us we have managed to maintain construction programme under strict Government guidelines to safeguard the vulnerable residents, staff and visitors.

Refurbished courtyard

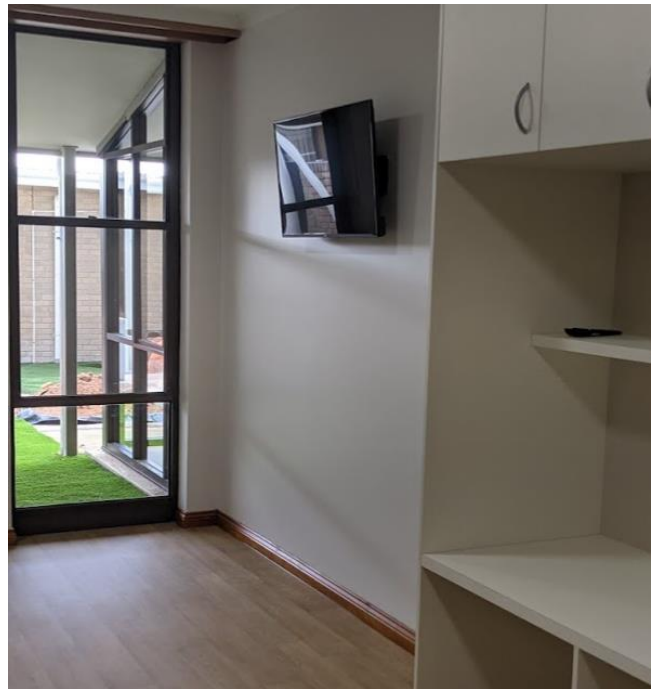

Many lovely improvements to see when you get a chance to have a look around, as you can see in the photos, some things that also help to complete the picture of a newly refurbished facility that may go unnoticed:

- New fence and garden bed at entrance driveway
- Solar panels on the roof to assist in energy savings
- Modern fixtures and upgraded nurse call system
- New televisions

The new year will bring, the completion of the fish pond, installation of plants for the new planter boxes in the courtyards and new signage.

PROJECT TEAM

RPS Project Manager, Troy Aberline, advises that the project has been successfully completed by Schiavello and their subcontractors and the Council is thrilled with the end result.

Troy adds "on behalf of the project management and construction team, I would like to thank the residents, families and staff of Lerwin for their patience and involvement with the project. We feel very proud to have been involved with such a special project that will assist the community of Murray Bridge for many years."

At this special time of year, we'd like to take a moment to thank you for the trust you've placed in us and

to wish you all the best for the year ahead.
