Sixth Street Revitalisation

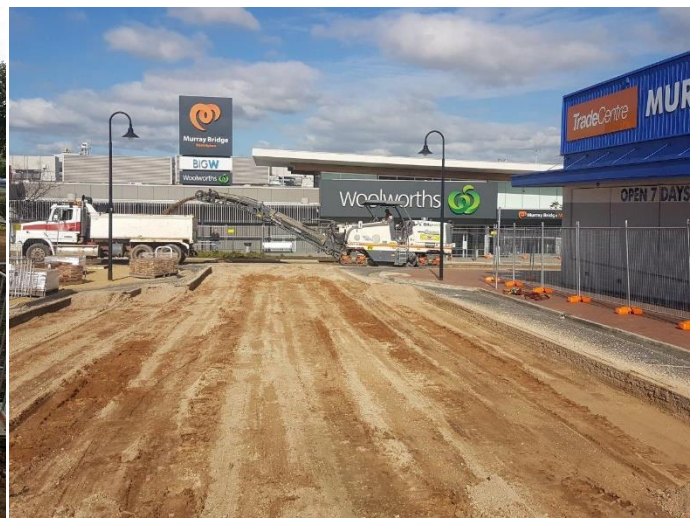

Community Update Number 10 August 2016

Construction Update

The Revitalisation of Sixth Street is now underway. The team from 'Outside Ideas' have removed the existing road pavements in Zone 1 (the Southern end adjacent to Mitre 10 and the Marketplace) and Zone 5 (the Northern end between Fourth Street and Fifth Street), in preparation for the new stormwater drainage and pavements to be constructed.

Open for Business

All local traders will remain 'open for business' throughout the construction works, with pedestrian access to shops and businesses available at all times. The staging of the works also means that there is plenty of parking available for visitors to the Sixth Street precinct. Please take the opportunity to visit your favourite shops on Sixth Street, and to watch the project unfold.

Latest News – 'Construction Zone'

You can view the latest news and images from the 'Sixth Street Revitalisation Project' in our 'Construction Zone' on our website. The construction zone will be the central source of information for the duration of the project.

Project Partners

The Revitalisation of Sixth Street is being delivered by Council, in partnership with the Australian Government through the 'National Stronger Regions Fund' and State Government's 'Planning and Development Fund'.
