Sixth Street Revitalisation

Community Update Number 12 September 2016

Construction Update

The construction of the new concrete pavements is currently underway in Zone 1 (the Southern end adjacent to Mitre 10 and the Marketplace) and Zone 5 (the Northern end between Fourth Street and Fifth Street). Over the coming weeks the new block paving for the road and footpaths will also be undertaken in these zones.

Preparation for the new concrete pavement on South Tce

New concrete pavements are covered in plastic while curing

Open for Business

All local traders will remain 'open for business' throughout the construction works, with pedestrian access to shops and businesses available at all times. The staging of the works also means that there is plenty of parking available for visitors to the Sixth Street precinct. Please take the opportunity to visit your favourite shops on Sixth Street, and to watch the project unfold.

Let's Talk – 'Construction Zone'

You can view the latest news and images from the 'Sixth Street Revitalisation Project' in our 'Construction Zone' on our 'Let's Talk' page of Council's website. The construction zone will be the central source of information for the duration of the project.

Project Partners

The Revitalisation of Sixth Street is being delivered by Council, in partnership with the Australian Government through the 'National Stronger Regions Fund' and State Government's 'Planning and Development Fund'.
